Q1. Read the following passage carefully and answer the questions that follow:

One of the greatest mysteries of bird life is travelling. Every year during autumn and early winter birds travel from northern regions of Asia, Europe and America to the southern warmer lands. They make the return journey again during spring and early summer. They are punctual unless they are delayed by bad weather. They face many dangers and hardships while travelling long distances through the air, over hills, forests, plains and large stretches of water. Sometimes sudden storms arise and drive them far out of course. Often they are blown right out to sea and are drowned in the wild waves. At night bright lights attract and confuse the birds. They cannot fly at their fastest. The migration speed is usually from 48 to 64 km an hour and rarely exceeds 80.

Answer the following questions:

(1 X 6 = 6 Marks)

Oh! Defenders of borders

You are great sons of my land

When we are all asleep

You still hold on to your deed.

Windy season or snowy days

Or scorching sun's sweltering rays

You are there guarding all the time awake

Treading the lonely expanses as Yogis.

Climbing the heights or striding the valleys

Defending the deserts and guarding the marshes

Surveillance in seas and by securing the air

Prime of your youth given to the nation!!

Wind chimes of my land vibrate your feat

We pray for you brave men!!

May the Lord bless you all!!
